DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- Claims 21 24 are rejected under 35 U.S.C. 102(e) as being anticipated by Ohki (US
 Pub. No. 2002/0001032).

Ohki discloses a portable scanning printer device comprising a hand held housing (1) adapted for handheld use and mounted within said housing, a navigation subsystem (30) and a data port (3, 4, 50) for transmitting data and connecting every electronic circuitry associated with said tracking and said data. Ohki device includes a plurality of print-heads included in the printer device (40) that are tuned to provide pixel sized localized electrical fields. Ohki device further includes processor means (3) and memory means (4) connected to said processor means. Ohki discloses an electrode array fixedly aligned for printing data rasters.
